

The protection of public infrastructures

BLUE RAVENS assists government services in making safe and secure the public domain coming under their jurisdiction.

- Audit and advice in ensuring the safety and security of municipal, federal or governmental installations and infrastructures.
- Safety of air, land and maritime transport sites.
- Mobilisation of specialised experts coming from the major security organisations of the French Government.
- Recruiting and training of security agents in the maintenance of law and order.
- Mobilisation of local security agents coming from pools of agents trained by BLUE RAVENS
- Dog units for the maintenance of law and order and search for explosives.
